MEASURING RESULTS FROM TRAINING

YOU CAN'T PUT A DOLLAR VALUE ON SOME TOPICS & THEIR BENEFITS

Although we all know that training can have many amazing benefits, sometimes it can be hard to prove those benefits with a dollar value to training. Some topics, like sales training or time management, might have direct, tangible benefits. Other topics, like communication or leadership, might have benefits that you can't put a dollar value on.

With this Measuring Results From Training course, you will learn about the different ways to evaluate training progress, and how to use those results to demonstrate the results that training brings. LEADERSHIP & INFLUENCE

LEARNING HOW TO ASSERTIVELY TAKE THE LEAD IN ANY SITUATION

They say that leaders are born, not made. While it is true that some people are born leaders, some leaders are born in the midst of adversity. Often, simple people who have never had a leadership role will stand up and take the lead when a situation they care about requires it. A simple example is parenting. When a child arrives, many parents discover leadership abilities they never knew existed in order to guide and protect their offspring.

Once you learn the techniques of true Leadership And Influence, you will be able to build the confidence it takes to take the lead.
